LOT 27 - 1955 International Harvester Boom Truck

Description

1955 International Harvester boom truck featuring a heavy-duty chassis and saddle-mounted front end. The truck retains its original design with a functional boom setup. The body shows wear consistent with age, but the structural components appear largely intact. The engine is present, though its running condition is unknown. Interior exhibits wear, with aged upholstery and faded dash components.

Refer to the pictures and in-person inspection for condition.

Quantity: 1
