LOT 58 - 1934 Peace Silver Dollar VG Collector's Edition

Description

Silver dollar displaying the classic Art Deco design by Anthony de Francisci, housed in a protective collector's edition holder. This scarce 1934 Peace dollar represents one of the lower mintage dates from the final years of the series.

The coin features the iconic crowned Liberty portrait on the obverse with distinctive radiate crown and the date 1934 prominently displayed. The reverse shows the American eagle perched on a mountain crag with an olive branch, symbolizing peace. Professional holder preserves the coin's historical integrity with authentication number BA17-00159-008.

Condition notes: Graded Very Good (VG) by the authenticator, indicating moderate circulation wear with most major design elements still visible but showing expected smoothing of high points. Light natural toning throughout consistent with age. The holder displays minor surface scratches but remains intact and protective. Holographic authentication seal present. Refer to the pictures and in person inspection for condition.
