

**Sale Name:** 14th Annual Montana Spring Auction

**LOT 22 - North American Black Bear Rug with Green Felt Trim**

**Description**

Full-body taxidermy bear rug featuring an American black bear (*Ursus americanus*) in excellent condition. This professionally prepared specimen includes the complete hide with head, claws, and open-mouth display showing impressive canine teeth. Distinguished by its decorative green felt border with sawtooth pattern and natural canvas backing.

The mount showcases quality taxidermy workmanship with glass eyes, detailed facial features, and well-preserved dentition. The impressive size indicates a mature specimen, prepared in the traditional flat rug style favored by hunters and collectors.

**Condition Notes:** Excellent overall condition with minimal wear. Fur maintains natural luster and density with no visible bald spots or significant shedding. Canvas backing is clean with minor creasing from storage. All claws and teeth intact with no damage or repairs noted. Green felt border trim remains vibrant with no fading or fraying. Refer to the pictures and in person inspection for condition.

**Approximate Dimensions:** 62 inches from nose to tail and 68 inches front paw span

**Quantity:** 1
