

**Sale Name:** 14th Annual Montana Spring Auction  
**LOT 70A - Vintage Christmas Snowman Blow Mold**

## Description

Molded plastic holiday decoration featuring a classic snowman design with Christmas themed elements. Manufactured in the traditional blow mold technique with hollow plastic construction. Contemporary manufacture in vintage style.

This festive illuminated piece showcases the characteristic blow mold styling with a traditional snowman design featuring black top hat adorned with holly and berries, orange carrot nose, and simple smiling face. Dressed in a blue and white striped scarf and red coat with white trim detail. Decorative elements include a candy cane, miniature Christmas tree, and wrapped presents at the base set against a black gift bag with gold bow detail.

The piece features internal illumination capability with a battery compartment visible on reverse side for convenient lighting. Construction shows the classic blow mold manufacturing process with uniform plastic walls and vibrant hand-painted details throughout.

Surface shows excellent condition with no significant cracks, splits or major paint loss commonly found in vintage examples. Some minor scuffs on base consistent with light display use.

Approximate Dimensions: 15 × 11 × 35 inches

**Quantity: 1**
