LOT 223 - 1965 & 1966 Special Mint Set Kennedy Half Dollars

Description

Includes two 40% silver Kennedy Half Dollars: one 1965 and one 1966, both housed in individual hard plastic holders and labeled as SMS (Special Mint Set) issues. These coins were produced during a transitional period when no standard proof sets were released. The SMS coins feature enhanced strikes with sharper details and satiny surfaces, offering a unique alternative to circulation issues from the same years.

Condition notes: Coins appear to be in attractive SMS condition with light toning. Housed in non-certified holders. Refer to the pictures and in-person inspection for condition.
