LOT 15c - Contemporary Power Recliner Cream Leather Chair

Description

Cream leather upholstered power reclining chair featuring contemporary styling with clean lines and segmented cushioning. This modern recliner showcases full-grain leather construction with contrast stitching throughout. The chair incorporates power recline and power headrest adjustment functions controlled via integrated side-mounted control panel, along with manual rocking motion.

Construction features a sturdy metal frame with high-density foam cushioning and smooth-operating electric mechanisms. The chair displays contemporary design elements with rounded arms, divided back cushioning, and streamlined silhouette typical of modern furniture manufacturing. All power functions operate properly including full recline extension as shown.

Condition Notes: Shows light use consistent with showroom floor model status. Minor scuffs and wear marks on leather surfaces consistent with display use. No structural damage observed. All mechanical functions operate as intended. Refer to the pictures and in person inspection for condition.

Quantity: 1
