**LOT 30b - Electric Fireplace TV Stand White & Gray Two-Tone**

**Description**

Two-tone electric fireplace television stand featuring white painted base with gray stained wood top. This media console combines entertainment storage with supplemental heating capability, including digital temperature controls and realistic log display with orange LED flame effects. The unit features glass-front cabinet doors with mullion details on side compartments, center open shelving for media components, and lower drawer storage.

Construction showcases engineered wood with painted white finish base contrasting with gray wood-toned top surface and trim details. The electric fireplace insert provides ambiance with or without heat function and includes digital display controls. Side compartments offer enclosed storage behind glass doors while center section accommodates media equipment. Multiple drawer storage provides additional organization with painted white interiors.

**Condition Notes:** Shows use with remote control missing. Cabinet interiors display minor dirt and scuff marks from normal use. Electric fireplace functions properly with flame effects and heating elements operational. All cabinet doors and drawers operate smoothly. Glass panels intact without chips or cracks. Minor wear to painted surfaces consistent with normal use. No structural damage observed. Refer to the pictures and in person inspection for condition.

**Quantity:** 1
