LOT 35d - Lifesmart Treadmill Digital Console Exercise

Description

Lifesmart treadmill featuring digital LCD display console with integrated workout programs. Steel frame construction with black powder-coated finish and ergonomic safety handrails. Console includes large touchscreen display with speed and incline controls, built-in speakers, and wireless charging pad for mobile devices. Running deck features textured non-slip surface with aluminum side rails for safe operation.

Digital interface displays standard workout metrics including time, speed, distance, calories, and heart rate monitoring. Quick-access speed controls numbered 1-12 on console frame for easy program selection. Unit includes original owner's manual and documentation. Emergency stop safety key with red lanyard included for operator safety.

Condition Notes: Minor crack visible in LCD display screen but does not affect functionality. Console remains fully operational with clear readouts. Running belt shows light wear consistent with showroom demonstration use. Minor surface scuffs on frame consistent with display model condition. All electronic functions operational. Refer to the pictures and in person inspection for condition.

Quantity: 1
