LOT 67 - 10 Rolls World Reserve Brilliant Uncirculated Nickels

Description

This collection contains ten rolls of brilliant uncirculated nickels certified by World Reserve and housed in individual blue velvet drawstring pouches with gold cord ties. Each roll contains 40 nickels and bears the World Reserve eagle seal certification with "BRILLIANT UNCIRCULATED" designation, indicating these coins have never entered circulation and retain their original mint luster. The rolls are properly wrapped in official bank paper with sealed ends and "D" mint mark stickers visible, confirming these are Denver Mint products. Each roll represents \$2.00 face value in uncirculated nickels pulled directly from mint production. World Reserve specializes in certified uncirculated coins and rolls for collectors seeking bank-fresh examples of modern U.S. coinage. The presentation format with individual velvet pouches creates an attractive storage and display system for collectors who prefer certified uncirculated rolls over raw bank rolls. This type of packaging ensures proper handling and protection while maintaining the rolls' uncirculated status for numismatic purposes. Condition Notes: All ten nickel rolls appear to be in original sealed condition with intact World Reserve certification stickers and wrapping. Blue velvet pouches show minimal handling with bright gold drawstring cords. Paper roll wrappers appear clean and undamaged with no signs of tampering or moisture exposure. Nickels visible at roll ends show bright uncirculated surfaces consistent with brilliant uncirculated designation. Total face value: \$20.00. Refer to the pictures and in person inspection for condition.
