**LOT 4A - Las Vegas Casino Gaming Tokens .999 Silver Commemorative Set**

**Description**

This lot features nine commemorative gaming tokens, each constructed with a .999 fine silver center medallion and outer ring in a bi-metallic design. The tokens appear to showcase various casino and gaming themes, with detailed engravings and text visible on both the centers and outer rings. Each token is housed in individual protective plastic capsules, suggesting they may have been issued as collectibles or commemorative pieces rather than standard gaming chips. The bi-metallic construction with .999 fine silver centers and commemorative nature indicate these were likely special issue tokens from gaming establishments or collector series. The tokens display various designs including what appears to be casino buildings, gaming motifs, and commemorative text around the outer rings. The .999 fine silver centers feature detailed relief work with different scenes and imagery related to gaming or specific casino properties. All tokens appear to be in good condition with minimal wear, consistent with commemorative or collector pieces that have been properly stored in protective cases.
